### Dogs and Cats Get Together Over Petuna

A veterinarian approved pet food formula, Petuna, found to be equally nutritious and delectable for both dogs and cats, has been thoroughly tested and perfected and is presently being introduced in leading Southern California grocery stores, company officials stated.

Canning the revolutionary new high protein pet food is the famous Franco-Italian Packing Co. of Terminal Island, California.

Petuna, a superior quality all red meat tuna, boasts the highest protein content of any pet food product in the world—25% by measure. This is approximately twice the protein content of the average pet food on the market, it was said.

Called the "pet-happy pet food," Petuna, in addition to being a health food for pets is actually preferred in taste to all other pet foods tested. The reason, according to Franco-Italian, is that Petuna is all dark red meat tuna. No fillers of any kind are added.

A total of 10,000 cases have already been packed and delivered to Southern California stores. Additional quantities are available as demand requires, promises Henry Abts, Franco-Italian official.

### Aid to Tuna Fisheries

Stating that the fishing industry has been receiving "step-child treatment from forces within the Department of Interior, Representative Cecil R. King today called for an all-out letter writing campaign to support creation of a new Federal Fisheries Commission.

Representatives providing for a semi-independent commission on fishing policy matters. The five-member commission would consist of two West Coast members, two East Coast members and a chairman, all appointed by the President.

A Senate bill (S339) paralleling the King measure was introduced into the upper house this week.

No Pep? Run Down? Always Tired?

Try hi-protein **PETUNA**

Leading medical authorities acclaim Petuna. A nutritional health food for cats and dogs. Veterinarily tested and approved Petuna is all red meat tuna. Contains 25% hi-protein.
